Schreiben des Abstracts

- In englischer (Abstract) Sprache
- Etwa 150-200 Wörter in einem Absatz
- Leser soll schnell entscheiden können, ob die Arbeit interessant ist (Inhalt auf das Wesentlichste reduziert)
- Nicht wertender Überblick der Arbeit
- So geschrieben, dass es „isoliert“ gelesen verständlich ist
- Aufbau
  - Kontext der Arbeit und Zielsetzung
    (Thema, Fragestellung, wichtigsten Thesen)
  - Verwendete Methoden
  - Ergebnisse und Schlussfolgerungen
- Hinweis: Es gibt auch andere Abstractformen, z.B. ohne Ergebnisdarstellung, beschrieben ist die bei ITS verwendete Form

Abstract: Beispiel

Smart Home is a generic term for systems used in homes to increase security, energy efficiency and in fact the quality of life. Used communication technologies are called Home Area Networks (HAN). Actually there is no standard which defines the main purpose and functionality of Smart Home Systems in detail. Especially in matters of HAN technologies this fact leads to a wide range of different products. This bachelor thesis compares state of the art technologies and solutions. Beside general characteristics, the following five criteria are essential for the comparison: support of IPv6, of 6LoWPAN, of a wireless HAN technology, plus a well-documented API and the possibility to use all functionalities without the need of a connection to a centralized server. Therefore common HAN technologies and recent products on the European market are compared with a set of corresponding measurable criteria and the customer's needs. The result of the research is a proposal for buying a specific Smart Home System. In addition the practical part includes detailed information on how to setup and configure the recommended product from Loxone.

Writing an Abstract: How to do!

- Write 1-3 introductory sentences that explain the topic, purpose and research question.
- Write 1-3 sentences describing your research methods (this may include the type of data analysis used).
- Write 1-2 sentences describing the results.
- Write 1-3 sentences containing your conclusions and recommendations.

Transition Words and Phrases

Conclusion Indicators signal the argument's conclusion		Premise Indicators mark the premise of some argument	
therefore	for these reasons	since	as indicated by
hence	it follows that	because	the reason is that
so	I conclude that	for	for the reason that
accordingly	which shows that	as	may be inferred from
as a result of	as a consequence	although	even though
consequently	which entails that	follows from	may be derived from
proves that	which implies that	as shown by	may be deduced from
as a result	which allows us to infer that		
for this reason	which points to the conclusion that		
thus	we may infer		

Abstract: Checklist

- What is the research about? Explain the topic and premise of the study.
- What are the research objectives?
- What research methods were used?
- What were the results of the research?
- What do the results imply?
- Conclusions and recommendations

Kapitel und Texte rund um eine Bachelorarbeit bei ITS

	Abstract/ Kurzzusammenfassung	Einleitung	Zusammenfassung und Ausblick (Schlusskapitel)	Mediale Aufbereitung
Zielgruppe	• Interessierte, im Gebiet der Arbeit kompetente Leser	• Tendenziell jedermann/-frau • Trotzdem technisch „sauber“ formulieren	• Leser der Arbeit	• Webseitenbesucher • Potentielle Bewerber • Schüler ab ca. 16 Jahren
Intention	• Kann „isoliert“ gelesen werden • Leser kann entscheiden, ob Arbeit relevant/interessant	• Einstimmung ins Thema • Formulierung der Aufgabe/Ziele/Frage-stellung • grobe Herangehensweise	• Abrundung der Arbeit • Ausblick	• Neugierde wecken • „ein bisschen angeben“ • „verkaufen“
Umfang	150-200 Wörter	Ca. 2 Seiten	1-2 Seiten	1900 – max. 3000 Zeichen = ca. ½ - 1 A4-Seite
